Welcome to the
RITA & ALEX HILLMAN FOUNDATION
Hillman Innovations in Care Webinar

The webinar will begin shortly
RITA&ALEX HILLMAN FOUNDATION
Hillman Innovations in Care Program

Ahrin Mishan, RAHF Executive Director

Host: Linda Le, Program Associate
Operational Issues

• This session is being recorded and will be available at: http://rahf.org/grant-programs/hillman-innovations-in-care-program/

• For technical difficulties, please exit the meeting & rejoin. If you continue to experience issues, please check your webinar invitation for further instructions.

• Session is scheduled for one hour only.
Questions

Questions will be answered at the end of the presentation.

The pane to the right of the WebEx Event Center enables attendees to submit questions at any time during the presentation.

To ask a question, please click inside the Q&A window, type your question & send to the Host (Linda Le).
Speaker

Ahrin Mishan
Executive Director
Rita & Alex Hillman Foundation
WELCOME
Purpose of Orientation

• To provide an overview of the program and the application process.

• To address as many of your questions as possible during the webinar.

• To provide information about how to find answers to your questions after the webinar.

FAQs are available at: http://rahf.org/grant-programs/hillman-innovations-in-care-program/faq
Innovations in Care

The goal of the Hillman Innovations in Care program is to advance leading edge nursing-driven models of care that will improve the health and health care of vulnerable populations.
Nursing-Driven

What do we mean by “nursing-driven?”

A solution, rooted in nursing’s holistic and integrated approach to care, that addresses a problem in the delivery of care, or an unmet health-care need of a population.
Example of *Nursing-Driven Innovation*

**CAPABLE**

Johns Hopkins University
PI: Sarah L. Szanton, PhD, CRNP

Designed by a nurse with deep knowledge of community and patient needs, CAPABLE is a person-centered, community-based intervention designed to increase mobility, functionality, and capacity to "age in place" for low-income older adults. The Capable team is comprised of an occupational therapist, a nurse and a handyman who visits low-income elderly residents, checking not just their vital signs and mobility but also for home environment details like handrails and smooth flooring.
Vulnerable Populations

Vulnerable populations include the economically disadvantaged, racial and ethnic minorities, LGBTQ, the homeless, rural populations and other groups that encounter barriers to accessing healthcare services.
Priorities for the Program

The foundation seeks proposals that address the health-care needs of vulnerable populations in the following areas:

- Maternal and child health
- Care of the older adult
- Chronic illness management
Types of Proposals

• The adaptation of proven nursing-driven models to new or expanded settings or patient populations. The adaptation should be past the pilot phase and demonstrate significant preliminary evidence.

• The expansion of emerging nursing-driven models with early evidence suggesting a strong likelihood for achieving Triple Aim-like outcomes on a broad scale.
Example of Adaptation of a Proven Program:

A highly-successful nurse home-visitation program that targets first-time mothers and their children is adapted to serve the needs of family caregivers and their elderly loved ones. After a successful pilot phase, the intervention enjoys strong institutional support from a leading visiting nurse service.
Example of Expansion of an Emerging Model:

A nurse-designed diabetes prevention program targeting Hispanic residents of an urban housing project shows promising outcomes after 5 years of operation.

The nurse-managed health center that administers the program seeks to expand its outreach by collaborating with local community health centers as well as national Hispanic service organizations capable of spreading the model to other community settings.
Priority consideration will be given to proposals that include one or more of the following:

- Engagement of patients, families, caregivers and community organizations
- Health and wellness promotion and disease prevention
- Inter-professional or multidisciplinary collaboration
- Institutional and community partnerships
- Provision of care in non-hospital settings
Proposals Must Address:

- Improving health, lowering costs, and enhancing patient and caregiver experience
- Scalability
- Sustainability
Proposal Evaluation Criteria

- Health Impact
- Nursing-Driven
- Boldness and Creativity
- Technical Merit/Execution Plan
- Leadership
- Institutional Support
- Scalability
- Sustainability
- Potential for Broad Impact
Brief Proposal Requirements

• Project Profile which includes:
  – Contact details of the organization and Principal Investigator
  – A brief description of your organization (500 words max)
  – An executive summary of the project (250 words max)

• Letter of Intent (1,000 words max)

• Supporting documents
  – Short bios of the project team. Full CVs are discouraged.
  – Up to two (2) letters of support
  – Up to two (2) items that provide additional evidence or information to support the application, which may include a brief video (no more than two minutes), published articles, brochures
Grant Awards

The program will award two grants of up to $600,000 each, distributed over a 36-month period.

Projects are expected to begin January 1, 2017, and end December 31, 2019.
How to Apply

• Please download the Request For Proposal (RFP) found on our website: http://www.rahf.org/grant-programs/hillman-innovations-in-care-program/

• Register and create a login to apply online: www.rahf.org/grants

• The deadline for submitting applications is 11:59PM PT, Monday, March 21st, 2016
Resources

For general questions please consult the:

– Request for Proposal
– FAQ Page
– Website (includes previous webinar recordings)

If you still have questions that have not been addressed in this webinar or the resources listed above, please contact Linda Le at Linda.Le@rahf.org.
The pane to the right of the WebEx Event Center enables attendees to submit questions at any time during the presentation.

To ask a question, please click inside the Q&A window, type your question & send to the Host (Linda Le).
This concludes our webinar.

This information and a recording of this webinar will be available at: http://rahf.org/grant-programs/hillman-innovations-in-care-program/

THANK YOU
