Purpose of Presentation

• Provide an overview of the program and the application process.

• Define key terms.

• Describe key elements of a strong proposal.

• Answer as many of your questions as possible.
Innovations in Care

The goal of the Hillman Innovations in Care program is to advance leading edge nursing-driven models of care that will improve the health and health care of vulnerable populations.
Nursing-Driven Models of Care

A solution, strategy, model or method rooted in nursing’s unique, holistic and integrated approach to care.

Nursing-driven models of care are often:

- Patient-, family- and community-centered
- Responsive to social determinants of health and matters of social justice
- Creative in their use of available resources
- Highly collaborative and interdisciplinary
Vulnerable Populations

Vulnerable populations include the economically disadvantaged, racial and ethnic minorities, LGBTQ people, people experiencing homelessness, rural populations, immigrant and refugee populations and other groups that encounter barriers to receiving quality healthcare services.
Proposal Evaluation Criteria

• Health Impact
• Boldness and Creativity
• Nursing-Driven
• Scalability/Potential for Broad Impact
• Sustainability
• Evidence/Execution Plan
• Leadership
• Institutional Support
Key Elements of a Strong Proposal

Common strengths among proposals that have made it through to the second round:

• **Nursing-Driven not just Nurse-Staffed**
  - Nursing-Driven = The model is rooted in nursing’s strengths and holistic approach care
  - Nurse-Staffed = Nurses are the designated workforce delivering the model.

• **Potential for Broad Impact**
  - On health of vulnerable populations
  - On a specific field
  - On healthcare
  - On society
Key Elements of a Strong Proposal

• **Scalability**
  – Potential for innovation to be replicated/scaled-up/spread on a national level
  – Multiple synergies:
    • Viability of model
    • Strong cross-sector partnerships
    • Institutional influence and support

• **Boldness, Creativity, Innovation**
  – Creative solutions that address significant health and health-care problems in a new way
  – Potential for leapfrogging conventional approaches

• **Evidence**
  – Evidence to suggest a strong likelihood for achieving positive outcomes on a broad scale
Brief Proposal Requirements

- **Project Profile** which includes:
  - Contact details of the organization and Principal Investigator
  - A brief description of your organization (500 words max)
  - An executive summary of the project (250 words max)

- **Letter of Intent** (1,000 words max)

- **Supporting Documents**
  - Short bios of the project team. Full CVs are discouraged.
  - Up to two (2) letters of support
  - Up to two (2) items that provide additional evidence or information to support the application, which may include a brief video (no more than two minutes), published articles, brochures
Grant Awards

The program will award up to two grants of up to $600,000 each, distributed over a 36-month period.

Projects are expected to begin January 1, 2020, and end December 31, 2022.
